**2017/2018**

**Director:**  
Prof. Cristina Basso

## Aims:

The Cardiovascular Pathology Master represents a unique occasion of professional update in the field of the cardiovascular pathology.

The purpose is the improvement of competence and skilfulness on congenital and aquired pathology of the heart and the vessels.

The participants will attend sessions and courses strongly oriented to the anatomo-clinical correlation; they will be able to discuss and interpret many cardiovascular cases.

## Two single courses are planned to be activated:

- Cardiac morphology
- Evolutionary medicine

## Topics:

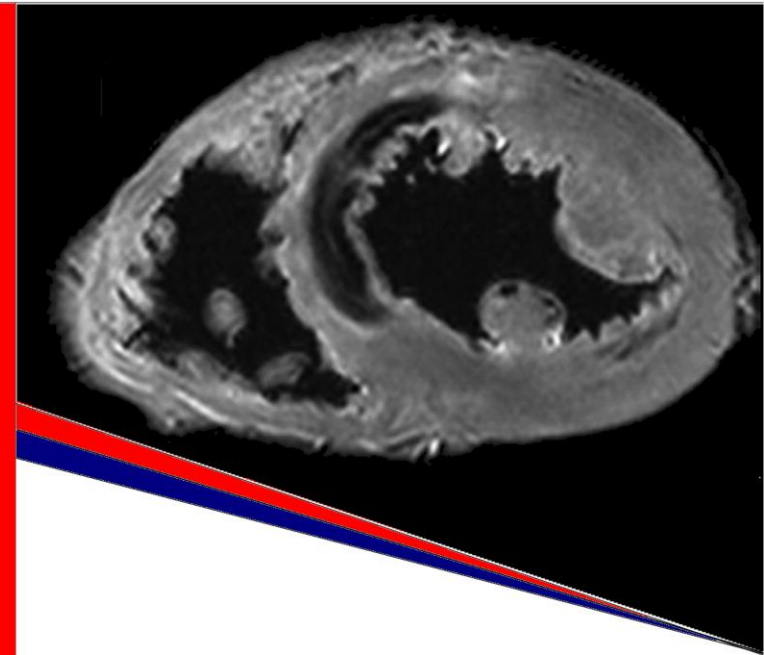

Sudden death  
Heart transplantation  
Congenital heart disease  
Surgical pathology  
Endomyocardial biopsy  
Post-surgical and interventional pathology  
Clinico-pathological correlation with advanced cardiac imaging (CT, CMR, 3D eco)  
Forensic cardiovascular pathology  
Molecular pathology of infectious and hereditary cardiovascular diseases

## This Master is adressed to:

- Pathologists
- Forensic doctors
- Cardiologists
- Cardiac surgeons
- Pediatricians
- Radiologists
- Veterinary doctors

## Admission degrees:

Medical degree with professional license  
Veterinary medicine degree

## Organizing committee:

C. Basso (director)  
A. Angelini
